

AZ®

78-MM PARTITION

ESSENTIAL INFORMATION

Edge-to-Edge Glass Partition

TIASO - Mitry Mory (77)

A Concept Combining Transparency and Acoustic Insulation

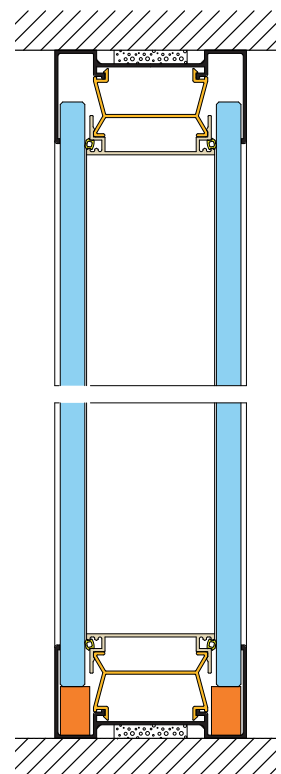

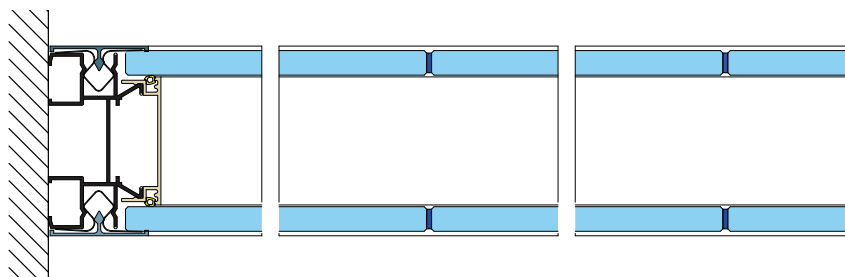

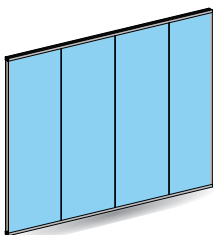

More?
Technical Catalogue
AZ®

Design

- Full-height glazed partition, glazing units assembled by invisible bonding.

Advantages

- Optimal transparency and luminosity.
- Excellent soundproofing thanks to the double glazing (bigger mass and elimination of phonic bridges).
- Total compatibility with the AZ® range.
- The supplied bonding material used with 10-mm glass complies with French DTU 35.1 regulations.
