## ESSENTIAL INFORMATION

### Soundproof Recessed Joint

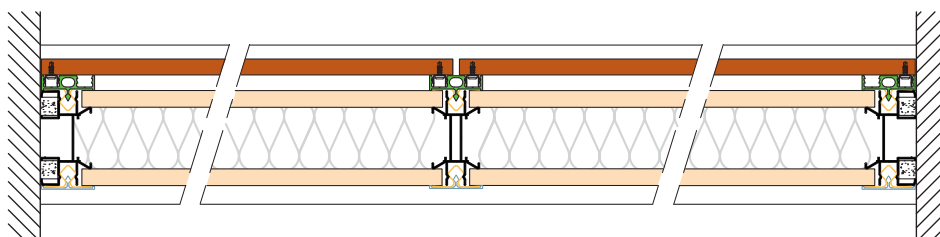

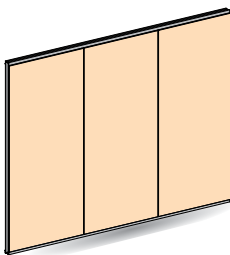

### An exclusive recessed-joint design with enhanced sound insulation

#### Design

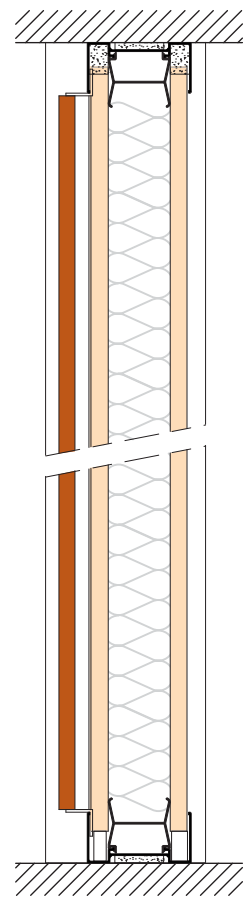

- Classic AZ<sup>®</sup> 78 mm structure with improved acoustical insulation through the addition of recessed-joint panelling.

#### Advantages

- Recessed-joint aspect with AZ<sup>®</sup> profile.
- Adjustable joint (0-15 mm).
- An efficient solution wherever sound insulation needs improvement.
- Easy installation (clip-on channels).
- Easy to adapt to an existing AZ<sup>®</sup> partition.
